

Dear Colleagues,

As you will have seen from the message we have sent to all students today we are providing reassurance that, in line with government guidance, the University remains open and travel to our campuses is permitted.

We will continue to provide the blended approach which has been so well-received by our students this academic year. I appreciate the efforts made by every member of staff in these deeply challenging circumstances. Please do keep referring to our 'questions and answers' for staff; these will be updated regularly. I will send a further communication if there are any additional twists or turns in the roller-coaster of government guidance.

For information, I have also attached the student communication message that we have also sent today.

Best,

Jane
